WHY FIVE9?

INTELLECT & EXPERIENCE

Highly skilled professionals who possess expertise in diverse Business and Technology areas make up the Business Technologies team. To provide world class service, we employ the best technicians, adhere to proven methodology, provide superior client service and become a true business partner in every project.

COMMITMENT TO QUALITY

We believe in Quality service and our approach has been designed to provide the same. We listen carefully to our clients and provide space, time and materials according to agreement for the project. We are proud of our Technical and Creative capability and this emerges from taking time to get it right. Our Quality Assurance Department tests throughout the process to ensure that the project will be successful.

ON TIME DELIVERY

We invest the time up-front to clearly understand your needs and then manage projects to ensure they are delivered on time and within budget. This methodology expedites rapid successful implementation, limits uncertainty and keeps the customer always aware of development progress at our end.

COMPETITIVE PRICING

We render services to our clients at a very competitive price and depending on the type of client engagement we offer them the most suitable pricing model structure which could either be fixed price based, time and effort based or a dedicated offshore team model.

TRACK RECORD

We have handled small - large scale projects and have over the years implemented solutions for numerous organizations of all sizes. Our growing list of satisfied customers' not only act as our excellent references but are also a source of our repeat business.

OUR DEVELOPING MODEL

FIXED PRICE

- × A transparent and predictable development process.
- × Little supervision from the client's side (all requirements are defined beforehand).
- × Coordination of the development process is carried out by the project manager.
- × No overpayments, the entire amount is agreed in advance.
- × On-time and on-budget product delivery by the IT partner, no turn-ups.
- × High level of motivation for software development outsourcing companies to be efficient.

DEDICATED TEAM

- × Predictable and transparent budgeting.
- × Straightforward communication.
- × High effectiveness.
- × Complete control over the team and project progress.
- × Reliable team.
- × Suitable for long-term projects with undefined and changeable requirements.
- × Flexible project scope and tasks flexibility.
- × Dedicated team has a deep understanding of the project and business goals.

OUR TECHNOLOGY COMPETENCY

PROGRAMMING LANGUAGES

PHP, Java, C# .Net, Python, C/C++, Swift, etc.

FRAMEWORK

Spring, Spring Boot, Hibernate, .Net MVC, WCF, WPF, NodeJs, Laravel, Yii, etc.

DATABASE

MS SQL, MySQL, Oracle, MongoDB, etc.

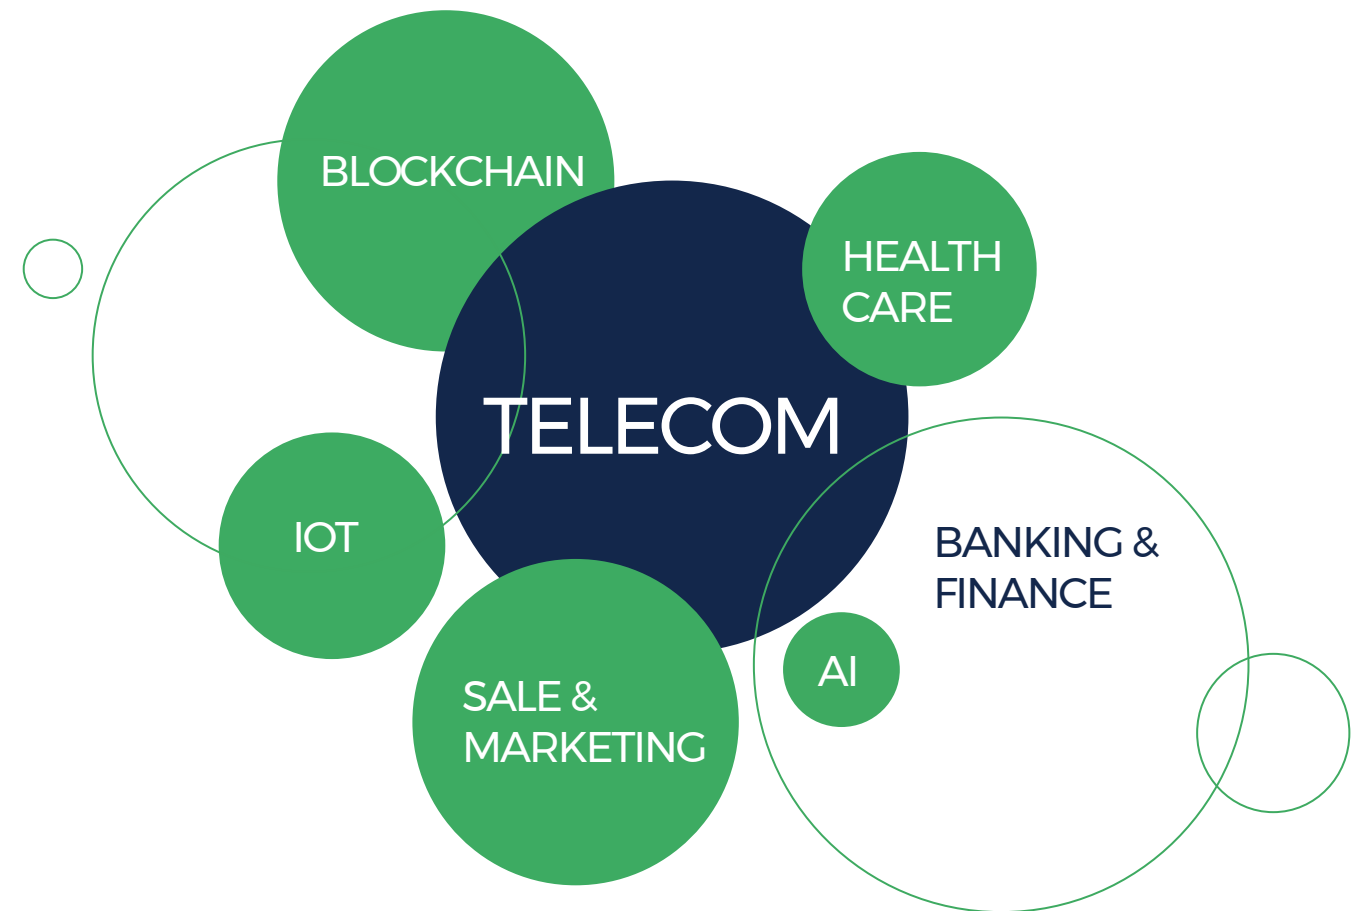

OS

Windows, Linux

CLOUD

AWS, Azure, IBM Cloud, etc.

WEB DEVELOPERS

- × **Programming languages:** C#, Java, Php, Python, NodeJs, Html5.
- × **Back-end Framework:** .Net, .Net Core, MVC Web Api, Entities Framework, Spring, Spring Boot, CakePhp, Laravel, Yii2, Django, etc.
- × **Frontend Frameworks:** AngularJs/Angular2, ReactJs, KnockoutJs, CSS3, Bootstrap, etc.
- × **Cloud Framework:** AWS, Azure, IBM Cloud.
- × **Database:** MS SQL, Oracle, MySQL, PostgreSQL, etc.
- × **IDE:** VS Studio, VS Studio Code, PyCharm, Eclipse, IntelliJ.
- × Good command in English.
- × Experience with Agile Development Process.
- × Deep understanding about OOP, Design pattern, RESTful APIs, modern web application architecture, micro services, etc.

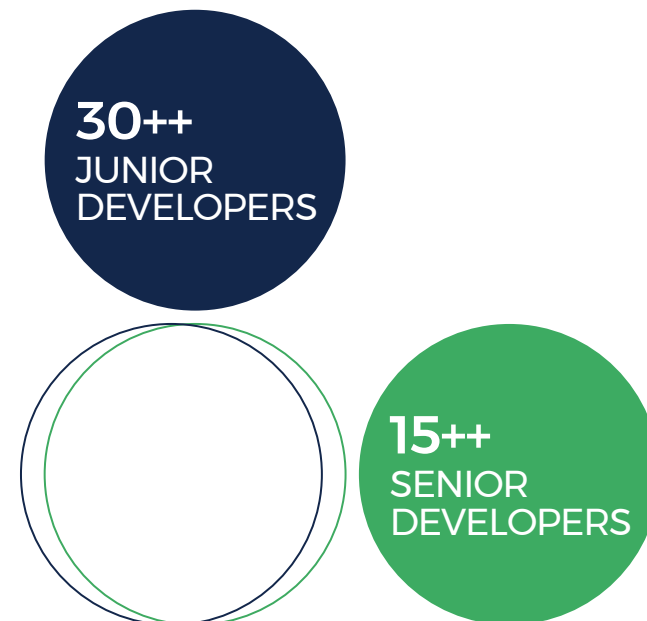

MOBILE DEVELOPERS

- × **Programming languages:** Objective-C, Swift, Java, React Native.
- × **Framework:**
 - Core Data, Core Animations, Cocoa Touch, etc.
 - ReactiveX, Retrofit, Butter knife, etc.
 - React, Redux.
- × Good command in English.
- × Experience with Agile Development Process.
- × Deep understanding about OOP, Design pattern, RESTful APIs, mobile application architecture, etc.

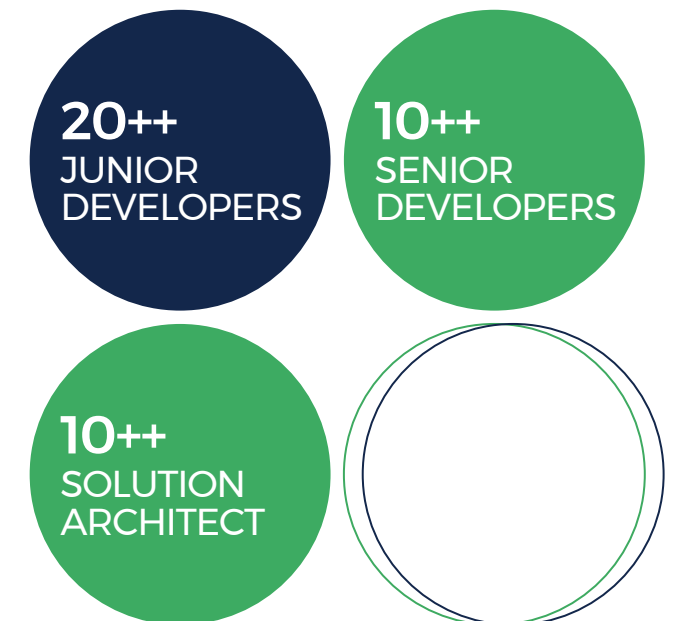

IoT RESOURCES

- × **Programming languages:** C/C++, Python, NodeJs.
- × **Cloud Framework:** IBM Watson IoT, SiteWhere.
- × **Protocols:** I2C, SPI, UDP/TCP, UART, MQTT.
- × **Mainboard:** AVR, PIC, Arduino, Raspberry Pi, OrangePi, BroadCom, FriendlyARM, etc.
- × **Sensor:** DHT21, SRF05, RFID, Encoder, Motion, etc.
- × **Motors:** Stepper, Servo and DC.
- × **Wireless Technologies:** LoRa, Zwave, Zigbee.

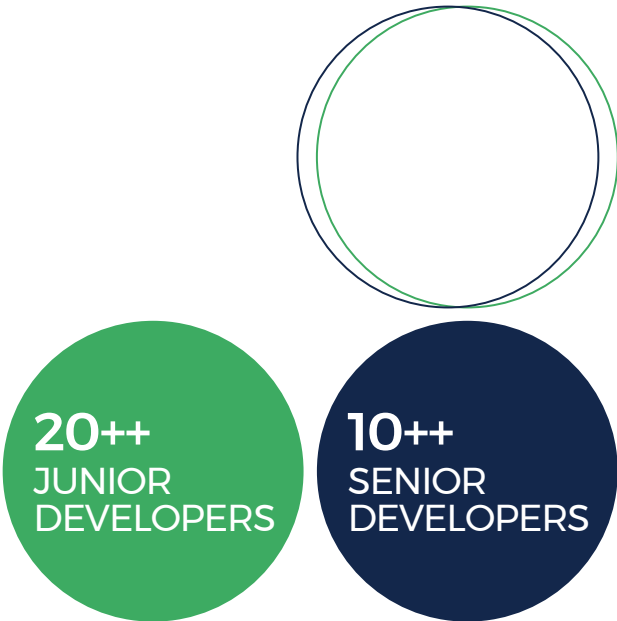

BIG DATA RESOURCES

- × **Programming languages:** Scala, Java, Python.
- × **Framework:** Hadoop, Apache Spark, Spark Streaming, Spark SQL, Dataframes, Kafka, etc.
- × **Database:** Cassandra, MongoDB, HBase.
- × Experience in major data integration, data governance.
- × Good knowledge of Big Data querying tools.
- × Knowledge of various ETL techniques and frameworks.
- × Strong experience in application design, development and maintenance.
- × Solid knowledge of design patterns and refactoring concepts.

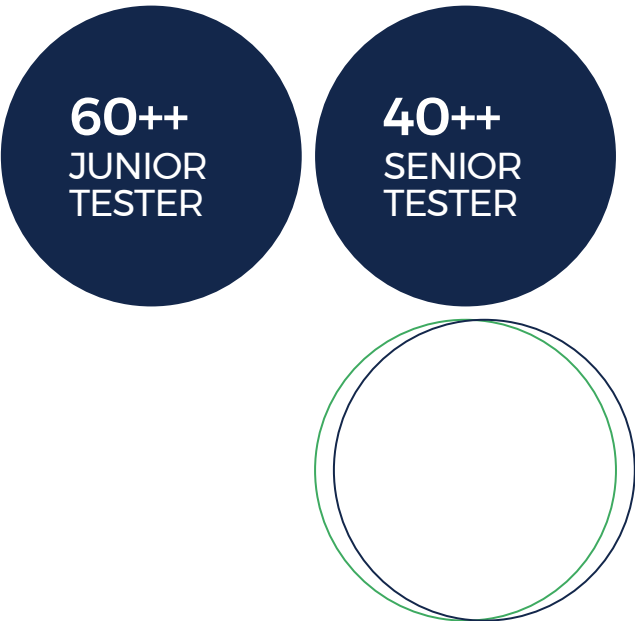

AI/MACHINE LEARNING RESOURCES

- × **Programming languages:** Java, Python, NodeJs.
- × Experience with IBM Watson APIs, and Cognitive Scale.
- × Experience with machine learning, recommendation engines and natural classification.
- × Experience working with large data sets, ETL, SQL, and JSON web services.

TESTING RESOURCES

- × Experience with Application delivery process, Automation Testing, Manual Testing.
- × Experience in system development life cycle, IT standards, procedures, policy,
- × Business assessment, IT environment.
- × Experience in Developing test plans, maintaining existing test plans and workflow, and expanding automated testing of the product.
- × Make recommendations for improving usability of the product.
- × Develop and write test cases defect reports.
- × Good command in English.

BUSINESS ANALYST RESOURCES

- × Experience in gathering and documenting business requirements and specifications, including functional requirements, flow charts, process descriptions, use cases, user stories and data specifications via communication and collaboration.
- × Experience in working with product and development teams to help establish, improve and implement standards, processes and procedures project management.
- × Experience in working with the Software Development, Quality Assurance, and Product Management groups to ensure successful delivery of services.
- × Experience in performing Integration Testing, User Acceptance Testing, and Functional Testing.
- × Experience in building and executing test plans, test scenarios and test cases in alignment with business requirements.
- × Experience in troubleshooting, resolving, and responding to 2nd level support issues with production issues.
- × Good command in English.

MODULES

- CALL ROUTING
Routing inbound call automatically base on predefined call strategy
- QUEUE MANAGEMENT
Define and configure strategy for call queue
- DASHBOARD & REAL TIME REPORT
Real time report for call statistic and KPIs
- IVR
Define IVR flow and execution
- CALL RECORDING
Call Recording & Management
- FACEBOOK INTEGRATION
Integrate with Facebook for customer messaging & Fanpage interaction
- CRM INTEGRATION
Integrate with Dynamic CRM & Salesforce for customer information lookup
- TICKET SYSTEM
Embedded ticket system
- vPBX INTEGRATION
Integrate with vPBX system

TECHNOLOGIES

- java Spring Boot
- MySQL
- Angular2
- Facebook API
- MS Dynamic CRM

FIVE9 EVENTS

Five9 Vietnam met and introduced our capabilities with the Prime Minister at Hoa Lac High - Tech park

KHAI PHÁC ỨNG DỤNG VÀ ĐÀO TẠO ĐIỆN TOÁN BIẾT NHẬN THỨC CỦA IBM ĐẦU TIÊN TẠI VIỆT NAM

ngày 20/04/2017

Five9 Vietnam became the first corporation in Vietnam to work and apply the cognitive computing of IBM.

Five9 Vietnam brings to TECHFEST 2017 the theme “Applied artificial intelligence in medical cure”.

Five9 Vietnam brings to TECHFEST 2017 the theme “Applied artificial intelligence in medical cure”.

Five9 Vietnam cooperates with 8 universities, institutes of Information Technology of Vietnam to train high quality human resources.
