with H.E. Mukhisa Kituyi, DG UNCTAD
with H.E. Ahmad Alhendawi,
UN Secretary General's Envoy on Youth

WSA Context

WSA is a unique awards system, selecting and promoting local digital innovation with high impact on improving society.

WSA has been initiated in 2003 by Austria in the framework of the UN World Summit on the Information Society (UN WSIS) held in Geneva. The declared aim of the conference was to make Information and Communication Technology (ICT) accessible to everyone and to bridge the digital divide.

The WSA categories are implementing WSIS Action Line C7.

WSA outlines its strategy to put the UN Sustainable Development Goals into action.

Geneva, Switzerland, 2003

Abu Dhabi, UAE, 2010

Cascais, Portugal, 2019

WSA Mission

The challenge is and remains worldwide: Bridge the worldwide divides.

Be it disparities in the access to water and energy, gender inequality and education opportunities, or differences in regards to access to information
- the **global divides** are **manifold** and **affect us all**.

Purpose driven, digital content and technology has the potential to create a more **equal**, **just** and **sustainable** society.

WSA focusses on digital innovation **solving local challenges** enabling a **positive**, **sustainable value** for society.

WSA combines an ongoing series of **international events** and activities with a **global network** of start-ups, social entrepreneurs, mentors, jurors, speakers, experts, government leaders, academia and civil society.

WSA is an **international platform** for cutting edge examples on how **ICTs** can have an **impact on society**.

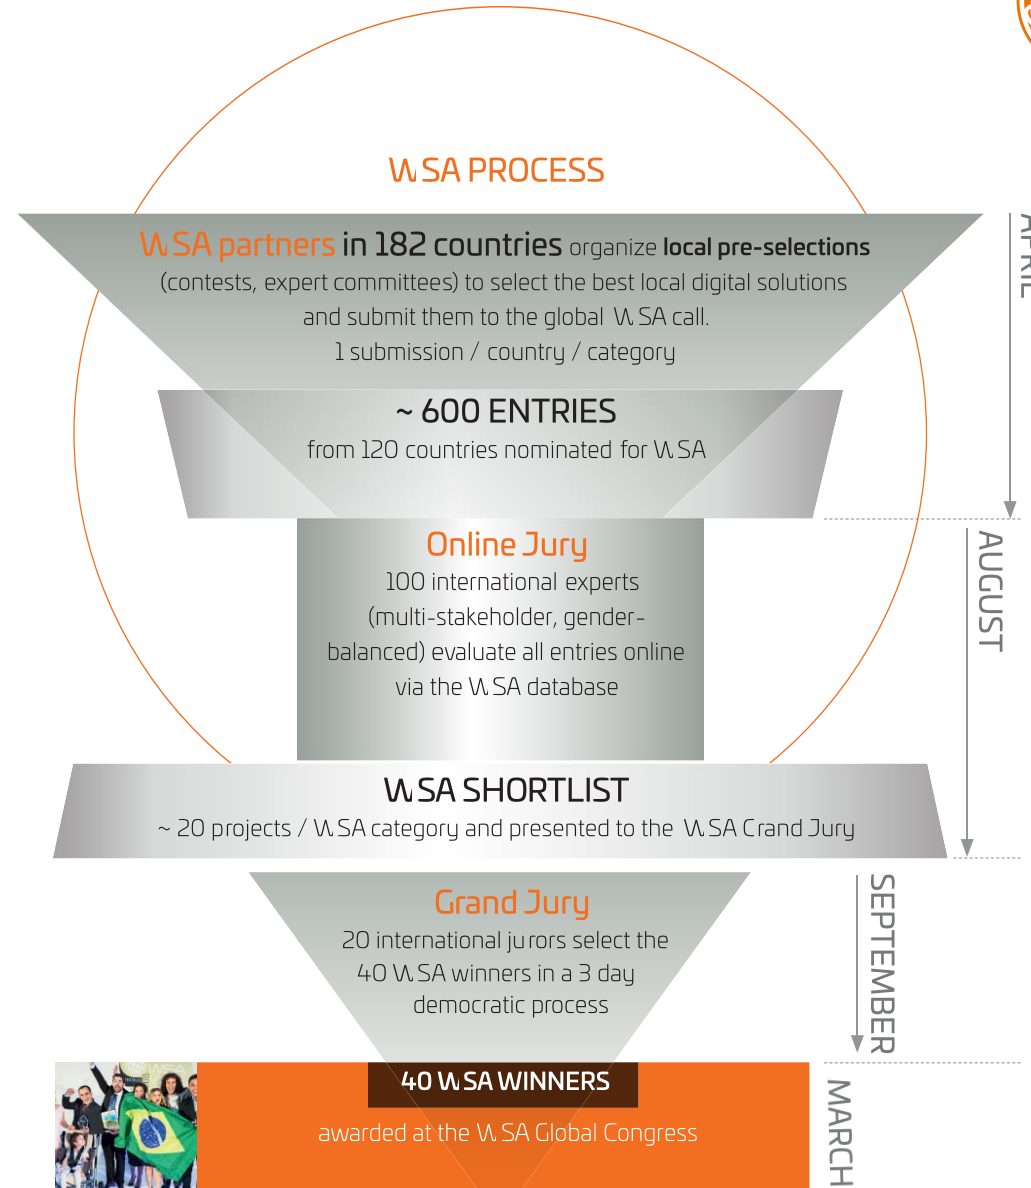

WSA Process

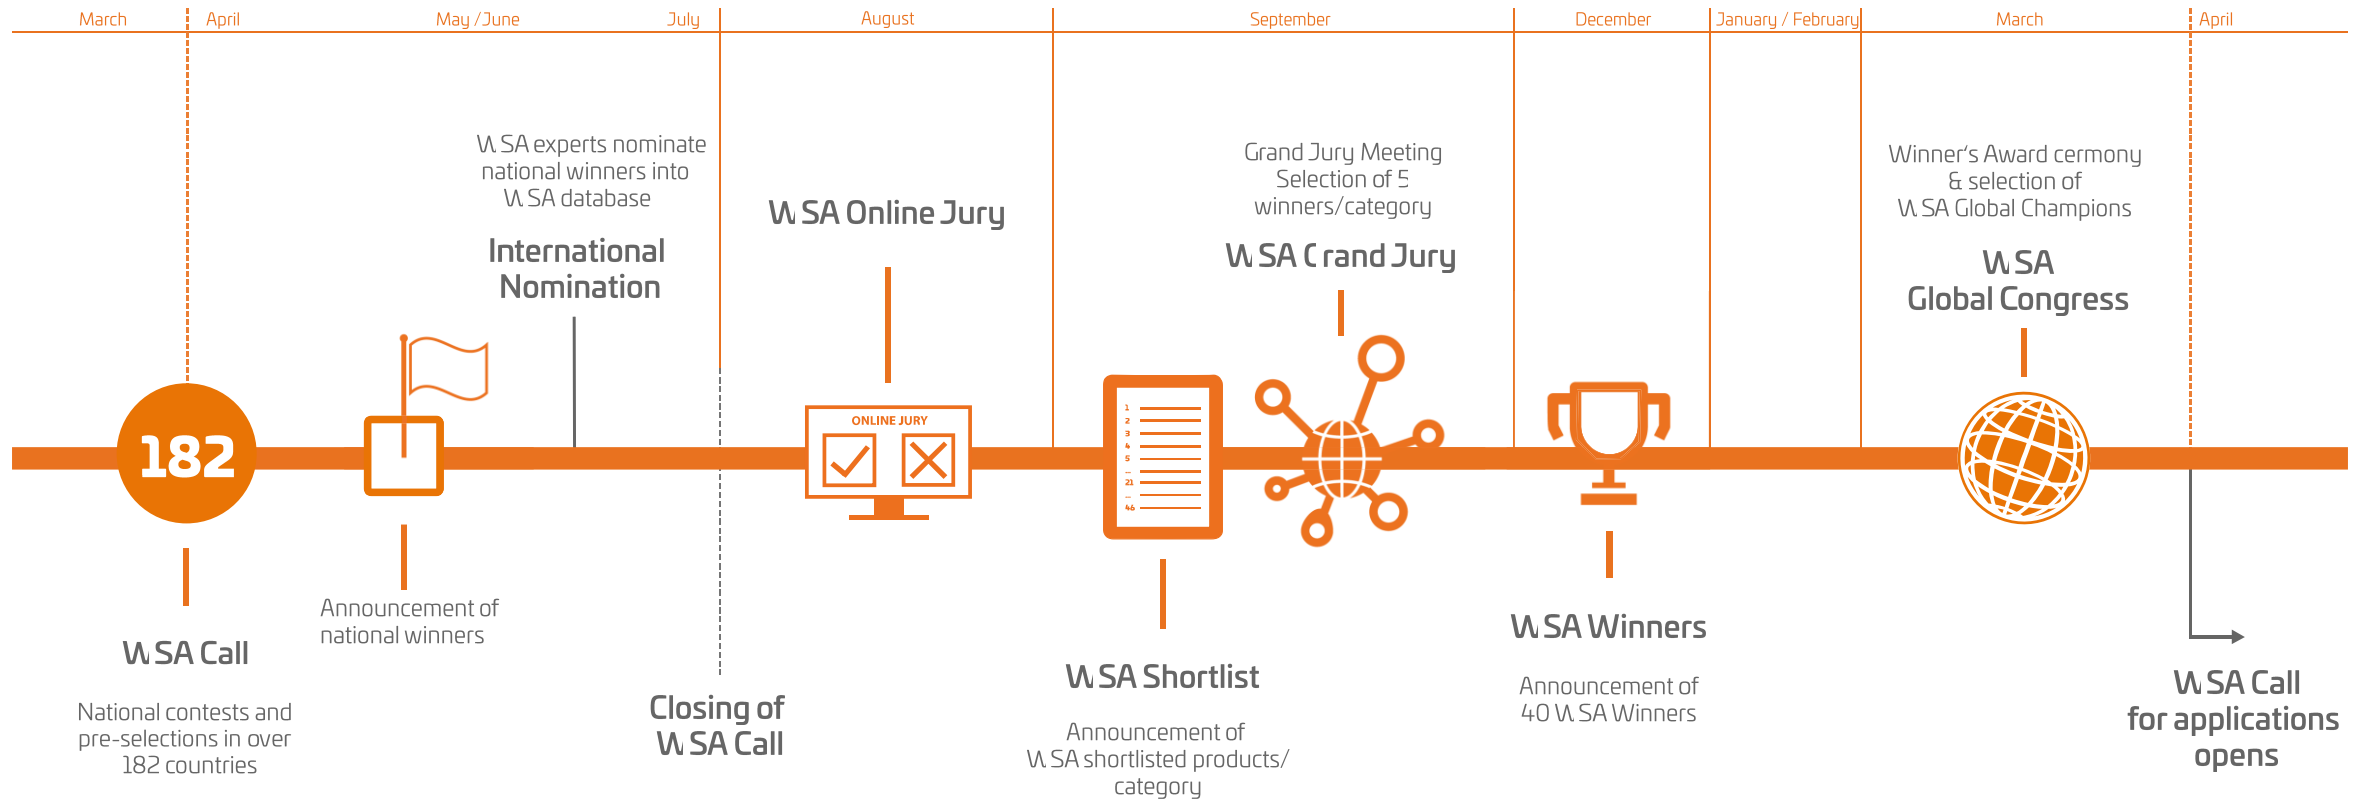

Sachi Wickramage from FlipBeats:

"WSA contributes to the UN Sustainable Development Goals agenda by giving an opportunity to digital innovators from over 180 UN countries to showcase their ability to accelerate positive Social Impact by aligning their work to the 17 SDGs."

WSA Timeline 2019 / 2020

What WSA is looking for...

The **creative & smart use** of ICT's to solve local issues. **Content** is more important than tech innovation. Be it a simple SMS based application, a creative app, an online platform or a content driven hardware solution - it's the **unique content** and the **high local impact** that counts.

Judges focus on the appropriateness of the application - does the application **face the local challenges** and needs?

Matching to the proposed **target group**.

Accessibility for users: the database application for WSA must be in English, the project's content can be in any language of the UN.

In the best case, the nominations should be **transferrable** to other countries/regions, or be **best practices**.

ICT's being used for social impact and tackling the **UN SDG's**.

WSA winners have to be introduced to the market – no proto-types or beta versions; they have to **prove already** some **local impact** and market relevance.

They should also not be older than **2 years**, the company itself can be older and established, but the **product/solution** itself shouldn't be older...

We highly recommend checking the recent WSA winning projects.

WSA Evaluation criteria

5 technical criteria:

CONTENT

Quality and comprehensiveness

FUNCTIONALITY

ease of use, user experience,
appropriate interactivity

DESIGN

navigation / orientation
and visual appeal

TECHNOLOGY

state of the art in technology and
quality of technical realisation

INNOVATION

Originality and newness to
targeted users, Business model
society and market

2 strategic criteria:

IN PACT

Local Impact, Impact on society

GLOBAL / UN VALUE / DIGITAL DIVIDE

What are the benefits of taking part?

FOR PRODUCERS

- Get recognized as best content and represent your country in a global network.
- Join a global network and exchange knowledge, promote your initiatives and get new collaborations
- WSA Nominee seal

FOR WINNERS

- Winners products will be highlighted as best content in the global communication.
- Connection with global experts, Jury members and developers from all corners of the globe.
- WSA network for new cooperation's and business contacts.
- Invitation to the **WSA Global Congress**

Ludmilla Rossi from Beaba :

"Being on WSA 2018 gave me a huge amplitude of what's the world now – and also that people, no matter they conditions, are fighting for solutions. It was inspiring to know people and projects that would never pop up under my eyes and also meet in person the creators of projects that I've been admiring for years!"

TAKE PART!

*Join the
WSA Global Congress
2020 in Vienna!*
