

Mr. Cary Ingram
Senior International Trade Specialist
International Trade Administration
U.S. Department of Commerce

Mr. Cary Ingram is a Senior International Trade Specialist for the U.S. Department of Commerce International Trade Administration. Mr. Ingram serves as a senior advisor on international trade and economic policy concerning the information and communications technology (ICT) industry. The scope of his portfolio includes managing trade, industry, and economic policy concerning fifth-generation (5G) and next-generation telecommunications technology, quantum communications, IoT, and other emerging technologies and applications in the ICT industry.

In his role at the Department of Commerce, Mr. Ingram is a lead advisor on 5G to the Office of the Secretary of Commerce, the National Economic Council, and the National Security Council. He advises on strategies to strengthen U.S. competitiveness in the global market for 5G network technology and U.S. leadership in next-generation network technology development. Mr. Ingram is also a leading expert within the Department of Commerce on government policies to develop and scale technology startup companies and entrepreneurship in the ICT industry. Mr. Ingram has served in the U.S. Department of Commerce for 15 years.

Prior to his work at the Department of Commerce, Mr. Ingram worked in corporate strategy development for multi-national companies in the consumer goods, bio-technology, and financial services industries. Mr. Ingram has also served as a consultant to the United Nations Office of the Secretary General for promoting corporate social responsibility and sustainable business practices.

Mr. Ingram received his B.S.B.A in International Business and a B.A. in Economics and International Relations from Drake University. He went on to earn a Master's degree from Columbia University in International Business and Finance.
